Statement on explanation of the reason why the public body is meeting electronically:

On March 10, 2020 the Governor of the State of Michigan declared a State of emergency across the State of Michigan under section 1 of Article 5 of the Michigan Constitution of 1963, the Emergency Management Act, 1976 PA 390, as amended, MCL 30.401 – 421, and the Emergency Powers of the Governor Act of 1945, 1945 PA302, as amended, MCL 10.31 – 33. These sections provide the Governor with broad powers and duties to cope with dangers to this state or to the people of the state.

As a part of the response to the emergency, the Governor has deemed it reasonable and necessary to temporarily suspend rules and procedures relating to physical presence at meetings and hearings of public bodies and other governmental entities in Michigan. These public bodies and entities must continue to conduct public business during this emergency. Due to the emergency situation and the request of the Governor to not gather in groups of 10 or more it is necessary for some public boards to meet electronically.

FIRE PREVENTION
Ott reported that from April to August 2020, the department conducted 28 new inspections and 16 re-inspections at Station One (Northville) and 47 new inspections and 4 re-inspections at Station Two (Plymouth). He is in the process of hiring a new inspector to replace one that moved out of the area.

PERSONNEL STAFFING REPORT

Chief Ott reported that there are 55 members of the department at this time. Three additional firefighters are in the hiring process.

RUN VOLUME REPORT

Chief Ott reported that runs were down 10% from last year with 968 total runs January through August and that most of the reduction was due to slow run volume in the early days of the pandemic, however, the department is back to its normal pace.

REVIEW OF STATION RESPONSE TIMES

Chief Ott reported that the average response time from Station One (Northville) was 6:15 (minutes/seconds) in June, 7:45 in July and 8:53 in August from the time of the call to the arrival of the first fire unit on scene. At Station Two (Plymouth) the average response time was 9:17 in June (8:47 for emergent), 9:13 in July (7:50 for emergent) and 10:36 (8:26 for emergent) in August. Plymouth expressed concern about the long response time for a call in September.

INFORMATIONAL STORIES ON FIRE SERVICES

Sincock shared several articles, including one about an emergency response fellowship at the University of Michigan and one about Naloxone. He also shared a photo of Northville's new ambulance, which was purchased with a grant.

ROLL CALL

Present: Chair Marques Thomey, Vice Chair Brian Turnbull, Member Paul Sincock, Member Pat Sullivan

Others Present: Chief Steve Ott, Public Safety Director Al Cox, Police Lieutenant Jamie Grabowski

Absent: Member Jim Rachwell

BEGIN DISCUSSION ON INTERLOCAL AGREEMENT RENEWAL OPTIONS
Sincock gave the group history and background information about the agreement, which expires in 2023. The recent ICMA report provided the City of Plymouth two viable options for moving forward: Continue with the present agreement or create a public safety department with police officers cross trained as firefighters and EMTs. The City would need approximately two years to develop a public safety model, meaning a decision would have to be made within six months.

The advisory board then had a preliminary discussion about what a continued partnership would entail.

ADJOURNMENT
Sincock made a motion, seconded by Sullivan to adjourn the meeting at 5:54 p.m.

FIRE PREVENTION DIVISION
SEPTEMBER - DECEMBER 2020 REPORT ON ROUTINE FIRE INSPECTIONS

The Fire Prevention Division is headed by the Fire Marshal, who is assisted by three part-time, State-licensed Fire Inspectors. The Fire Marshal conducts plan reviews, meets with owners, contractors and other City officials, oversees the testing of fire suppression and fire alarm systems in new occupancies, and oversees the work of the Fire Inspectors.

The principal work of the Fire Inspectors is the conduct of routine business fire inspections. In addition, they may work with the Fire Marshal on suppression system and alarm tests, meetings with owners, contractors and other officials, assist in the conduct of pre-plan site visits and otherwise participate in the work of the Fire Prevention Division.

Routine business fire inspections consist of new inspections, and re-inspections, when the Fire Inspector returns to check on the status of violations noted during the new inspection. Inspection activity slowed in the late fall due in part to many businesses being closed as part of the COVID-19 response. For the period covered by this report, the following routine business fire inspections were conducted:

Station 1 (Northville)		Station 2 (Plymouth)	
New Inspections	5	New Inspections	16
Re-Inspections	0	Re-Inspections	0

The Department has interviewed candidates as we seek to hire at least two new Fire Inspectors. A final decision will be made soon and the new Inspectors will begin work while waiting to enroll in the Fire Inspector I training.

Beginning with the next NPFAB meeting, we will also report on the activity of the Fire Marshal.
